### Skill

---

- HTML, CSS
- ReactJS
- Strapi
- MERN Stack
- Postman API
- Python , Django
- Bootstrap framework
- Tableau

### Achievements

---

- Took part in Choreo and Ballerina workshops, achieving 2nd position and receiving goodies and swags for being the 2nd one to complete the task.
- Participated in Inoskill and secured 3rd prize in the Code Debugging Quiz.

### About Me

---

Enthusiastic and diligent BTech student specializing in Computer Science. Proficient in ReactJS, Python, C, and C++, with extensive experience in Django and the MERN stack for web development, as well as Bootstrap for front-end design. Eager to innovate, adapt, and contribute to impactful projects while continuously enhancing skills in a dynamic environment. Passionate about leveraging technology to tackle real-world challenges and dedicated to self-improvement in the field of computer science.

### Experience

---

- Completed a 4-weeks web development internship at CodSoft, focusing on developing responsive, user-centric web applications with modern technologies.
- Developed a dynamic and responsive Electronic Store website using ReactJS, Strapi and also integrated Stripe for payment processing.
- Developed and deployed a comprehensive restaurant website using Django and Bootstrap, hosted on PythonAnywhere.
- Created Web Projects like a Calculator, Stopwatch, and Todo List, and developed a Weather Station with real-time API integration.
